

Le Tour
de Chance

This summer a lucky few will ride off with some great prizes...WILL YOU BE ONE OF THEM?

While the world's top cyclists prepare to take on the challenge of the Tour de France, Comstor and Cisco have teamed up to launch a world-class competition they call *Le Tour de Chance*.

Le Tour de Chance is a three-month race designed to drive sales of eligible Cisco Collaboration Breakaway-Plus SKUs and Cisco Services. The more your team sells, the more likely it will be to ride off with some great recreation prizes and travel packages – such as the opportunity to experience the 2013 Tour de France in person!

» GET READY

Ride on over to www.tbc.com and register for *Le Tour de Chance*.

REGISTER NOW

» GET SET

Study the course – which features three stages and more than 15 prizes!

Stage 1: May includes:

Hardware prizes for the top 3 finishers based on revenue
